Impact Locally on Mental Health

Mental health is essential to everyone’s overall health and well-being. Estimates suggest that only half of people with mental illnesses receive treatment. Psychiatric medications are an important part of treatment for many people who live with a mental illness, but the price can often be an obstacle.

- $ Saved: $1,177,251
- People Helped: 6,599
- Average Savings: 45%

Cumulative data through March 31, 2018

How Common is Mental Illness?

Prevalence of Any Mental Illness (AMI) Among U.S. Adults

In 2016, there were an estimated 44.7 million adults aged 18 or older in the United States with AMI.

- Women: 21.7%
- Men: 14.5%

AMI was higher among women than men.

- 18-25: 22.1%
- 26-49: 21.1%
- 50+: 14.5%

Young adults aged 18-25 years had the highest prevalence of AMI compared to adults aged 26-49 years and aged 50 and older.
